EDIC for Digital Commons

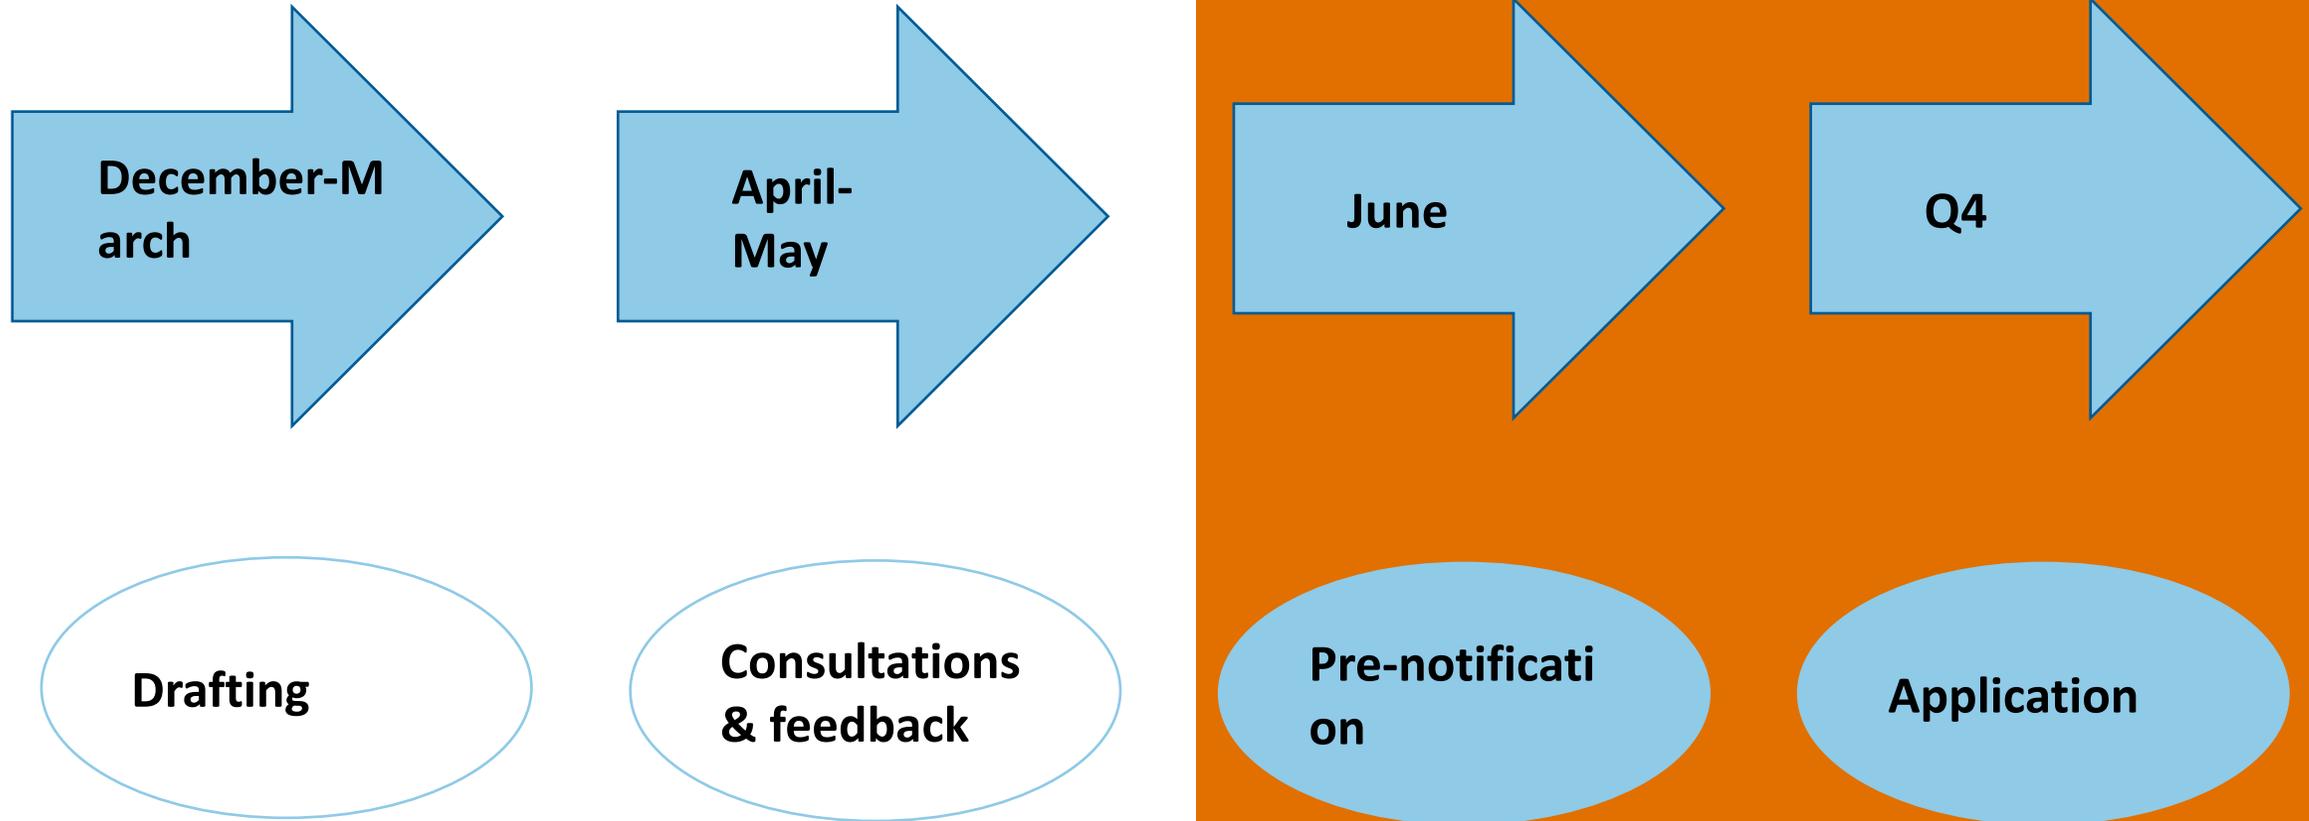

# 1. Background

- > EDIC as instrument
- > French report 'Towards a Sovereign Digital Infrastructure of Commons'
- > Core Group

## 2. Timeline

## 3. Priorities EDIC

- › **Contribute to EU Digital sovereignty** by reducing technological dependencies and diversifying value chains through the alternatives offered by digital commons.
- › **Promote a multi-stakeholder and inclusive model of digital governance**, involving public authorities, the technical community, civil society and industry, to pool resources and strengthen collaboration.
- › **Contribute to the development of a digital public space** where secure and interoperable digital technologies and services align with EU principles, rights and values and policies and are accessible, respecting freedom of choice and where everyone can benefit from the digital society.
- › **Make Europe a leading player in digital commons** for the digital transition, by ensuring a level playing field, supporting the EU's competitiveness, innovation and harnessing the potential of data economy.
